MAGNETIC PARTICLE INSPECTION EQUIPMENT

**ELECTRO MAGNETIC UNITS
Y6 SERIES YOKE**

The Y6 Yoke combines low cost, light weight (3.5 kg) and leg adjustability, creating one of the most versatile pieces of magnetic particle equipment available.

Poles are adjustable from 25 mm to 250 mm making the equipment ideal for inspecting components of different geometries.

Single-handed operation, it is widely used in the testing of welds, automotive components, steel and grey iron castings and for in-plant inspection and repair.
